## SNACKS AND NAMKEEN PACKAGING MACHINES

- HIGHER ACCURACY
- FOOD GRADE MATERIALS
- ULTRA LOW WASTAGE
- USER FRIENDLY OPERATION
- 24X7 SERVICE SUPPORT

# WEIGH METRIC PACKING MACHINE

## Available Models

SL	Models	Capacity
1	GP-206 -CS	20 gms to 100 gms
2	GP-306-CS	50 gms to 250 gms
3	GP-1000-LW	50 gms to 1000 gms
4	GP - 2000 -CS	500 gms to 2000 gms
5	GP - 111 - MH	10 gms to 1000 gms

### Applications

Chips, Puffed Snacks, Dry Fruits, Wrapped Candies, Macaroni, Biscuits, Pasta, Breakfast Cereals, Potato Chips, Kurkure, Macroni, Indian Namkeen, Nuts, Soya Chunks, High Counts Biscuits, Rice flakes, wheat and all types of free flowing materials

### Filler

- Volumetric Cup Fillers
- Linear Intelligent Electronic Weigh fillers
- Multi – Head weigh fillers

### Technical specification

Paper Pulling Mechanism	: Belt draw – off system
Packaging Material	: Heat Sealable laminated or co-ex films
Heat system	: Constant / Impulse seal system
Supply Voltage	: 415 VAC, 3 phase, 50 Hz
Connecting load	: 4 kw
Air consumption	: 35 meters $\wedge$ / hr @ 8 bar

### Optional accessories

1. Z type conveyor
2. Date / batch coding device ie. Ink jet /hot foil/ contact type printer
3. Side gusset mechanism & block bottom device
4. Impulse constant change over system

### Salient features

- Automation equipped with CE marked PLC and touch screen HMI
- Sturdy , Versatile & Compact Constriction of Machine
- Print mark sensors
- Motorized precise film reel unwinding mechanism
- Quick and easy size change over
- Designed as per stringent quality standards
- Perforation system to offer chain pouches
- Adjustable stroke of cross sealing jaws for optimum performance
- Contact parts are fully made of food grade materials
- Running mode weight adjustable system
- 7 inch Hygiene Touch Screen with multi language
- All food contacted surface is made of stainless steel all parts are enclosed to prevent product build – up
